CASINA DI MACCHIA MADAMA

On the top of Monte Mario, in one of the richest historical sites of the capital, stands Casina di Macchia Madama. This location, that comes to life on the site where the Holy Roman Emperors camped in the Middle Ages, has written the history for many centuries. Its name derives from the wood that surrounds it, called Macchia Madama.

Casina dominates Rome, Colli Albani and the wonderful back-drop of the Monti Lucretili. An impressive and particular atmosphere make it an ideal place for every important event.
